

Bowman Directory Information

Each year the Bowman PTA publishes a directory of student names, phone numbers and addresses along with their parents' names. The Directory also includes class lists and other useful school numbers. A copy of the directory is provided to each family that joins the Bowman PTA and is for their personal use for school related purposes only. You do not have to be a member of the PTA to have your student's information published in the directory. **If your information in the 2007-2008 Directory is correct you do NOT need to return this form. If you submitted a form this past spring, you do NOT need to return this form. This is either for families new to Bowman since last fall, or those families whose information (other than grade and teacher) needs to be updated since the 2007-2008 directory was printed who have NOT completed this form before.**

For the timely creation of the PTA Directory please complete and return this Directory Form as soon as possible. By authorizing publication of directory information below, you understand that your information will automatically be included in the directory the following years until your child leaves Bowman, unless you specify otherwise.

Student1 Name _____ Grade as of 9/08 _____
